Education

National Institute of Technology, Rourkela

B.Tech. in BioTechnology (CGPA - 8.17)

August 2024 – Present

Rourkela, Odisha

Saraswati Vidya Mandir H S School, Neelakantha Nagar

HSE – CHSE Odisha, Science (PCMB) (Percentage - 91.67%)

May 2022

Berhampur, Odisha

Saraswati sishu Bidyamandir, Chatrapur

AHSE – BSE (Percentage - 91.5%)

May 2020

Chatrapur, Odisha

Relevant Coursework

- Data Structures and Algorithm
- Generative AI
- Data Analysis
- Deep Learning
- AI/ML
- Data Science

Projects

Multi-Disease Prediction System

December 2025

Python, ML, Streamlit

GitHub

- Built a multi-disease prediction system using SVM (Diabetes, Parkinson's, and Breast Cancer) and Logistic Regression (Heart Disease), achieving accuracies of 77.27%, 89.74%, 94.73%, and 90.16% respectively on benchmark datasets.
- Integrated ML models into a full-stack Streamlit web application using Python, Pandas, Scikit-learn, and Streamlit-option-menu; deployed on Streamlit Cloud with modular routing and real-time user interaction.
- **Website:** multi-disease-prediction-system-1.streamlit.app

Uber Data Analysis

July 2025

Python

GitHub

- Conducted complete exploratory data analysis (EDA) on real-world Uber ride dataset using Python, leveraging libraries such as Pandas, NumPy, Matplotlib, and Seaborn for data preprocessing, feature extraction, and visualization.
- Extracted insights from datetime fields by generating features like day, hour, month, and ride time-of-day segments (e.g., Morning, Afternoon) to analyze usage patterns.
- Created visual insights using bar plots, line graphs, and box plots to reveal trends in travel behavior and ride usage.

E-Commerce Sales Analysis

July 2025

Python

GitHub

- Conducted end-to-end exploratory data analysis (EDA) on e-commerce transaction data using Pandas, NumPy, Plotly and Seaborn to uncover insights on sales trends and customer behavior.
- Cleaned and preprocessed data, extracted features, and visualized patterns in orders, revenue, and categories.
- Delivered actionable insights through heatmaps, grouped sales trends, and bar plots to support data-driven decisions.

Achievements/Certifications

- **Introduction to Data Science** **July 2025**
Successfully completed the "Introduction to Data Science" course by Infosys . *Certificate*
- **Programming Using C++** **July 2025**
Successfully completed the "Programming Using C++" course by Infosys . *Certificate*
- **Infosys Scholarship Holder** **Sept 2024**
Infosys Foundation STEM Stars Scholarship holder *Certificate*

Technical Skills

- **Languages:** Python, C, C++
- **ML/AI :** Numpy, Pandas, Matplotlib, Seaborn, Plotly, Scikit-learn, Tensorflow, LangChain
- **Miscellaneous:** PowerBI, MS Excel, Git, VS Code

Extracurricular Activities

INNOVISION'25 – The Technical Fest of NIT Rourkela

May 2025 – Present

Event Coordinator

NIT Rourkela

COSMO'25 – The Multi-Ethnic Fest of NIT Rourkela

May 2025 – Present

Guest Lecture Team Coordinator

NIT Rourkela

AXIOM – The Official Mathematics Club

January 2025 – Present

Technical Team Member

NIT Rourkela
